**DETAILED ACTION**

1 This action is responsive to the preliminary amendment filed on September 26, 2003.

**EXAMINER'S AMENDMENT**

2 An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Denise Everet on April 1, 2004.

The application has been amended as follows:

**In the claims:**

In claim 76, in line 5, insert --comprising chromium-binding agents that are capable of binding Cr<sup>3+</sup> with a log binding constant of more than 12 in an amount of less than 30% by weight -- after the word "composition".

In claim 86, in line 4, insert -- comprising chromium-binding agents that are capable of binding Cr<sup>3+</sup> with a log binding constant of more than 12 in an amount of less than 30% by weight -- after the word "agents".

In claim 87, in line 6, insert -- comprising chromium-binding agents that are capable of binding Cr<sup>3+</sup> with a log binding constant of more than 12 in an amount of less than 30% by weight -- after the word "composition".

3 Claims 76-89 are allowed.

**STATEMENT OF REASONS FOR ALLOWANCE**

4 The following is an examiner's statement of reasons for allowance:

Elizabeth A. Braek (US 2,403,575) teaches an article of manufacture and more particularly a shoe polishing kit comprising a substantially flat disc member and applicator brush (see col. 1, lines 1-3, col. 2, line 55 and col. 3, lines 1-2). However, patentee differs from applicant in that Elizabeth A. Braek does not teach or suggest a shoe treating kit comprising an article of manufacture comprising a treating composition for treating shoes wherein the composition comprises benefit agents and chromium-binding agents that are capable of binding Cr<sup>3+</sup> with a log binding constant of more than 12 in an amount of less than 30% by weight in a package in association with instructions for use as required in the instant amended claims.

Accordingly, the claimed subject matter as a whole would not have been obvious to one having ordinary skill in the art of a shoe treating kit and manufacturing articles.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
